MTB LOOP 03
RIDE TIME: INTERMEDIATE / ADVANCED   RIDE TIME: 60-90 MINUTES

STOP!
GIVE WAY TO
WAIT   TALK

Loop 3 heads out to the western side of Mt Stromlo via the northern trails and a steep climb to Echidna Gap. Once on the other side you have a long descent via slickrock junction to the western edge of the Stromlo Forest Park. Plenty of re-growth makes it like riding through a tunnel at times.

A fast return on the flowing single track along the northern boundary descends to the finish point at the carpark. To negotiate this trail you will need a good level of fitness with the technical skills to match. The climb is demanding in places and the descent and other areas are peppered with rocks and other obstacles.
